Highlights

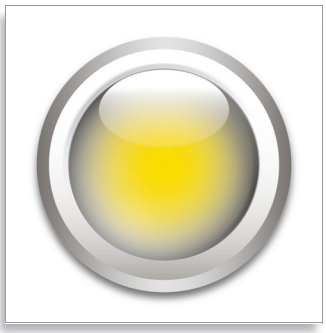
Saves up to 80% energy

The big advantage of fluorescent lighting is its energy efficiency. A fluorescent lamp consumes just one fifth of the energy of a conventional bulb. That means installing Philips fluorescent lighting in your home to replace standard bulbs will reduce your lighting electricity bill by around 80%!

Ultra-long bulb life

Philips bulb included with an ultra-long bulb life, up to 6000 hours.

Diffused warm white light



This light uses the latest energy-saver lamp technology by Philips to provide a flood of warm white natural light. Its diffused light will illuminate your room with warm white light, allowing you to combine functionality and respect for the environment. Diffused light is perfect for general illumination.

Adjustable spot head
Direct the light where you want it most by simply adjusting, rotating or tilting the spot head of the lamp.

Aluminium
Highly contemporary, aluminium is a soft, durable, light-weight material with a soft silver colour.
